February 24, 2024

1 Introduction

As data scientists for the National Oceanographic and Atmospheric Administraiton Centre, I was assigned to the tropical cyclone tracking team. As a data scientist I have been tasked with extracting storm data from the tropical cyclone reports and producing maps of where the cyclones have taken place.

2 Create CSV Script

Algorithm 1 create_csv.sh script
  Input: input_file, _file

---

3 Storm Plots

4 Git usage
